

Education

The School of Education at Whitworth University includes the department of Teacher Education, the Whitworth Center for Gifted Education, the department of Graduate Studies in Education, the Master in Teaching Program, the Whitworth Office of Educational Certification & Career Services, and the Teacher Certification Program. All certification programs in the School of Education are approved by the Washington State Professional Educator Standards Board.

Mission :

The Whitworth University School of Education prepares socially just and inclusive teachers, counselors, therapists and administrators to be educators of mind and heart who are scholars, community members, effective practitioners, visionary leaders and advocates.

Vision :

The Whitworth University School of Education provides opportunities to integrate theory and practice in diverse settings through the study of established and emerging content as well as through pedagogical and professional knowledge.

The student learning outcomes of this program prepare students to:

1. Plan for effective instruction and assessment using research-based methods that include differentiation for all learners.
2. Employ effective assessment strategies (formal and informal) throughout the learning cycle to support analysis of student learning and provide informed feedback to students on their progress.
3. Engage K-12 learners in academic and reflective discourse for the purposes of eliciting student voice regarding content understanding and to provide opportunities for student self-reflection.
4. Effectively engage in self-reflection to support continued improvement in instructional practices.
5. Integrate faith and learning by articulating one's personal faith tradition or principals of one's personal worldview; examining how professional practices are aligned to or challenge one's own faith or worldview perspectives; and evaluating one's own positions and choices using faith/worldview perspectives as a framework.
6. The teacher candidate will identify and describe the role that human development and social, cultural, linguistic, physical and community context play as related to the learner and the learning enterprise; apply theories, concepts and strategies for culturally responsive pedagogy to promote inclusive communities for learning that foster the values and gifts of each member.

Whitworth University is in compliance with the U.S. Department of Education Title II reporting requirements. The most recent Whitworth University Title II report is available on our website: www.whitworth.edu/soe/title-ii-information (<http://www.whitworth.edu/soe/titleII.htm>). For more information or to request a copy, contact the office of the dean of the School of Education.

Certification

- While every attempt is made to ensure that certification programs are compatible with degree study, certification requirements may go beyond degree requirements.
- Whitworth University certification programs lead to Washington state certification. For certification in another state, the applicant will need to contact the appropriate state's certification agency to determine requirements.
- Whitworth University certification programs must meet requirements instituted by the Washington Office of the Superintendent of Public Instruction (OSPI) and the Professional Educator Standards Board (PESB). Hence, certification requirements are subject to change upon notification by the OSPI and PESB and must be incorporated into all appropriate certification plans.
- Certification study without the pursuit of a degree is possible where appropriate.
- Only candidates in good standing will be certified. Contact the Whitworth Educational Certification & Career Services Office, located in Dixon Hall, at 509.777.4403 or 509.777.4405 for details.

Department of Teacher Education Undergraduate Program

The Whitworth Department of Teacher Education views the role of the teacher as a calling – a commitment to understanding and responding compassionately to the needs of children and youth. The undergraduate teacher education program conceptualizes our graduates as educators of mind and heart who serve as scholars, community members, effective practitioners, visionary leaders and advocates. Courses in the program are structured around this conceptual framework, and students are encouraged to view their future roles as teachers through this model. Per Washington state law, all field experiences require current Washington State Patrol/FBI fingerprint clearance, as well as a character clearance application via the Office of Superintendent of Public Instruction (OSPI) website (www.k12.wa.us (<http://www.k12.wa.us>)) for pre-residency clearance. See the School of Education for information and requirements.

Important Notes for All Undergraduate Teacher Education Students

1. Requirements for Washington state teacher certification and endorsements are subject to change. Therefore, all teaching areas and programs must be approved by the Whitworth Department of Teacher Education.
2. Admission to the teacher education program and student-teaching program must be approved by the department of teacher education.
3. Full admission to the teacher education program requires a minimum cumulative GPA of 3.0 at Whitworth, which must be maintained through student teaching. See department for admission guidelines.
4. Application for student teaching must be submitted one semester in advance. Admission to student teaching is required before a student enrolls in student teaching courses.
5. Current WSP/FBI fingerprint clearance and completion of the Washington State Pre-Residency Clearance application are prerequisites of each student for any field experience after EDU 203.
6. Admission to the department of teacher education and student teaching do not guarantee state certification.
7. Students cannot enroll in upper-division courses without first being admitted to the teacher education program.
8. All grades received in courses used for teacher certification and endorsements must be "C" or better. Courses that apply toward certification may not be taken P/NC.
9. Students seeking secondary certification must complete a major in an academic area approved by the department of teacher education.
10. Students are responsible for information in the certification handbook, which is available on the department website.
11. Students must have taken and passed the WEST-E or NES in their major before they may begin student teaching.
12. Upon the successful completion of an approved endorsement program, candidates will be recommended to OSPI for the official Washington State Teaching Certificate. Students planning to seek certification in another state must research certification and testing requirements for that state and are encouraged to do so early in their program.
13. An ELL endorsement may be required in certain states, such as California, Florida and Nevada. Students are responsible for knowing state requirements for ELL endorsements.

Post-Baccalaureate Certification Programs

Two teacher certification programs are available at Whitworth for people who already possess undergraduate degrees: (1) the Teacher Certification Program and (2) the Master in Teaching Degree Program.

The Whitworth Teacher Certification Program, a collaborative effort between the School of Education and Whitworth Continuing Studies, allows adults who work full time to complete a teacher certification program in a cohort-based accelerated evening and Saturday format. The program is designed to prepare elementary certificated teachers; however, candidates wishing to obtain secondary certification can complete a program consisting of a combination of traditional day and accelerated evening classes. Within the TCP program, post-baccalaureate students may choose between the master of education and certification-only tracks. Students can enroll in the 500 level of designated courses and apply up to 18 TCP semester credits as electives if accepted to Whitworth's M.Ed. program. For transferability, application must be made within four years of TCP program completion. Cohorts begin in August and February. For more information, please see the TCP program description in the Adult Degree Programs/Continuing Studies section of this catalog or contact an TCP advisor at 509.777.3222.

The Whitworth Master in Teaching Degree Program allows students to pursue a master's degree and teacher certification concurrently. Whitworth was the first university in Washington state to receive approval for an MIT program after state legislation permitted this option. This is an intensive, selective, full-time day-school graduate program that begins in June and continues for 13 months, culminating in June of the following year. Both elementary and secondary certification options are available in the MIT program. Application to the program must be made by April 1. (See graduate section of this catalog.) For more information about the MIT program, contact the Assistant Director at 509.777.3769.

Teacher Certification Program: Degree Completion in Elementary Education

Courses are limited to students enrolled in the Whitworth Teacher Certification Program, a collaborative effort between the School of Education and Whitworth Continuing Studies. Students can earn a bachelor of arts degree in elementary education along with Washington state residency teacher certification. Those currently holding a college degree can complete certification requirements only, or certification in conjunction with a Master of Education degree if accepted to the Whitworth Graduate Studies in Education Program. For complete program and course descriptions, see the Adult Degree Programs/Continuing Studies section of this catalog.

ASL Courses

ASL 100 Intro to Sign Language

3

Preparation for language acquisition via overview of sign language with concentration on language universals of category and relationship. For continuing studies students only.

ASL 101 Introduction to Sign Language & the Deaf

4

Study of American Sign Language, language acquisition, teaching methods, teaching sequences and materials for persons with hearing impairments, communication disorders, and cognitive delays. Overview of the history of sign language as well as receptive and expressive finger-spelling. Also listed as EDS 501 (students must register for graduate-level course and complete extra project if in a graduate program). Fall Semester and Summer.

ASL 102 Sign Language & the Deaf II

4

Advanced study of American Sign Language and the culture of the deaf. Expansion and improvement of manual communication skills, translating or interpreting abilities, and development of mental-processing techniques for comprehending the meaning of unfamiliar signs. Overview of educational aspects of deaf culture and sign language. Also listed as EDS 502. (Students must register for a graduate-level course and complete an extra project if in a graduate program). Prerequisite: ASL 101. Spring Semester and Summer.

EDU Courses

EDU 150 Exceptionality Across the Life Span 2

This course acquaints students with the issues associated with human diversity across the lifespan in today's society. The focus is on individuals who have disabilities, their struggle for legal rights and social inclusion, and resources available for support. Students will also work directly with community agencies that serve people with disabilities. Jan Term.

EDU 151 Integrating Technology in the Classroom 3

This course will inform students of the groundwork for choosing technology in their classrooms, prepare them in integrating good teaching practices alongside technology, and introduce current technology being used in current K-12 classrooms.

EDU 201 Educational Psychology for Children and Adolescents 3

A study of children and youth with a focus on psychology in the classroom. Developmental aspects (cognitive, social-emotional, moral, spiritual, and physical) and sociological challenges (abuse and neglect, substance abuse, poverty, familial discord) and their impact on teaching and learning are examined. Pre-requisite or Co-requisite: EDU 202. Fall and spring semesters and Jan term.

EDU 201H Honors Educational Psychology 3

Honors section of Educational Psychology with emphasis on applied research in educational psychology. A study of children and youth with a focus on psychology in the classroom. Developmental aspects (cognitive, social-emotional, moral, spiritual, and physical) and sociological challenges (abuse and neglect, substance abuse, poverty, familial discord) and their impact on teaching and learning are examined. Prerequisite or corequisite: EDU 202. Spring semester.

EDU 202 Exploring Teaching 1

On-campus seminars examine the profession of teaching. Co-requisite: EDU 203. Fall and spring semesters and Jan Term.

EDU 203 Field Experience 1

Semester-long field experience in which candidates are placed in classrooms as teaching assistants and tutors. Opportunity for candidates to reflect on their potential as educators, and relate classroom experience to EDU 201 and Washington state educational reforms. May require transportation to an off-campus placement. Concurrent enrollment in EDU 202 required. Fall and spring semesters and Jan Term.

EDU 223 Introduction to Montessori Education 1

This course provides an overview of the development of Montessori pedagogy, including guiding principles, theory and practices.

EDU 230 Teaching with Trauma in Mind: Practical Strategies to Support Students Affected By Trauma 2

The purpose of this course is to educate teacher candidates on childhood trauma and how it affects students' brains. Adverse childhood experiences (ACEs) are prevalent within our schools and affect how students learn and behave. This course will provide an understanding of what trauma is and practical strategies that teacher candidates can implement within their classroom to support students living in trauma. Teacher candidates will have the opportunity to read books, blogs, and articles that include research-based practices and apply what they have learned in their practicum or student teaching setting.

EDU 231 Introduction to Early Childhood Education 3

This course surveys the foundational elements of early childhood education and developmentally appropriate practices. Child development; standards for culturally responsive teaching, curriculum design and assessment; creating equitable classrooms and services; health and safety; fostering partnerships with families and community members; and professionalism will be explored.
